

September 25, 2009

Dear SCCP Pharmacy Preceptors:

It is again time to ask all South Carolina College of Pharmacy Preceptors for their student availabilities for the upcoming 2010 - 2011 year. Students on both campuses are enlisted in the statewide SCCP program, which allows for rotation opportunities throughout the state and affiliated out-of-state sites.

To those of you new to our experiential program, welcome aboard. An Experiential Coordinator will be available to provide you with information required for your success as an SCCP preceptor. Available at this time to you are: syllabus templates for your clerkship rotation, should you need them; suggestions for student assignments; and access to the South Carolina College of Pharmacy Preceptor's web page: <http://www.sccp.sc.edu/programs/experiential/index.aspx>.

At this website, preceptors have access to a revised Experiential Training manual, preceptor and student announcements, and E-library resources. The availability forms for 2010-11 are also located here. The South Carolina College of Pharmacy is expanding our Preceptor Development and will keep you informed of additions to our resources and tools.

I am grateful for the generosity of your time and efforts. Cathy Worrall, Assistant Dean for Student Affairs and Experiential Education at the MUSC campus, Alissa Smith, Regional Director for Upstate Education, and I hope that you will remain long term partners of our experiential program, as it gives us all a chance to give back to the profession which has given so much to us.

Please complete the appropriate availability form online, or print and return to us as instructed by the October 31st deadline. I look forward to working with you all.

Sincerely,

Amy D. Grant, PharmD
SCCP Director of Experiential Education/
Clinical Assistant Professor
