

Adding Fall Courses in Top Hat: South Carolina College of Pharmacy

- Once you login to Top Hat, navigate to the **Course Lobby** by clicking the Top Hat icon in the upper left corner. Then click on **+ Add a Course** to enroll in the required courses for your corresponding class (broken out by year and campus below). You can search by the last name of your instructor or by the name of the course, but the best way to search is by **Join Code** (refer to table below). Once you find your course in the list, simply click the **“Enroll”** button to continue. You will then need to go back to the home page and continue adding the rest of the courses.
