SC State Board of Pharmacy Forms Will Be Provided:

(College Affidavit and Certification of Clinical Experience)

We will provide you with your College Affidavit and Certification of Clinical Experience once we are notified that all of your rotations and your SCCP 999 Seminar have been successfully completed. For those of you who complete your rotations in March, we will notify you by email when all of your grades have come in and you will be able to pick your forms up once you receive your email (after March 30th). For those of you who are completing your rotations in April, once we receive all of your grades, we will notify you by email when your forms are ready to pick up (after April 30th).

Requesting Out of State Board Forms:

If you are going to be registered in states other than South Carolina, please contact the Board of Pharmacy in that state to ask questions about their process. Once you have determined what you need from us, please contact Diane Wise by email and let her know which state(s) you will need forms completed for (wise@sccp.sc.edu). She will contact you by email when your forms have been completed and are ready for pick up.
